

In Maths, we will be learning:

- Fractions, Decimals & Percentages.
 - Perimeter & Area.
 - Statistics
 - Shape

How you can help:

Encourage your child to keep practicing their times tables as well ensuring they complete any homework set.

In English, we will be creating:

- **A non chronological report on allotments.**
- **A narrative based on our class text 'The Secret Garden.'**
- **A set of instructions to plant a tree/flower.**
- **Explanations of a variety of case studies around the world.**

How you can help:

Ensure that the children are revising their statutory words given to them as well as giving them a chance to read to you whenever possible.

Summer 1 2024 — Allotment

Let's grow. A crispy carrot, a luscious lettuce or a tasty tomato. Dig deep and put your back into it, making your own tubs and planters and nurturing your greens. Harvest your crops and make soups and dishes of seasonal foods that taste delicious. Learn about farms and where food comes from, writing reports on worldwide produce. Discover which allotments are closest to your school, and open the door to the secret garden. Then establish a farmers' market, harvesting your crops and selling local produce. Include garden crafts and work out your prices. Be sure to make a profit, not a loss. After all that hard work, have your fingers gone green?

In our Topic lessons, we will be:

- **Creating a meal from ingredients you would find in an allotment.**
- **Discussing food origins and the food miles of our favourite meals.**
- **Creating our very own plant care guide and plant to diary - following the journey of our own planting.**
 - **Exploring the germination rate of seeds in a variety of settings and temperatures.**
