September 2023		

At Hopton CEVC Primary School we live out the words of Jesus in Matthew 19 vs 26 'With God all things are possible'. We raise aspirations and encourage perseverance to reach goals in life and learning

1. Introduction

Hopton CEVC Primary School recognises that children are vulnerable to and capable of abusing their peers. We take such abuse as seriously as abuse perpetrated by an adult. This includes verbal as well as physical abuse. Child on child abuse will not be tolerated or passed off as part of “banter” or “growing up”.

We are committed to a whole school approach to ensure the prevention, early identification and appropriate management of child on child abuse within our school and beyond. In cases where child on child abuse is identified we will follow our child protection procedures, taking a contextual approach to support all children and young people who have been affected by the situation.

We recognise that child on child abuse can manifest itself in many ways such as:

- Child Sexual Exploitation
- Sexting or youth produced digital imagery
- Upskirting
- Bullying
- Radicalisation
- Abuse in intimate relationships
- Children who display sexually harmful behaviour
- Gang association and serious violence (County Lines)
- Technology can be used for bullying and other abusive behaviour

Keeping Children Safe In Education (KCSIE), September 2022, further explores behaviours that may occur in child on child abuse.

Child-on-child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- abuse in intimate personal relationships between children (sometimes known as
- ‘teenage relationship abuse’)
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise
- causing physical harm (this may include an online element which facilitates,
- threatens and/or encourages physical abuse)
- sexual violence, such as rape, assault by penetration and sexual assault; (this
- may include an online element which facilitates, threatens and/or encourages
- sexual violence)
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party •
- consensual and non-consensual sharing of nude and semi-nude images and/or videos¹¹ (also known as sexting or youth produced sexual imagery) •
- upskirting,¹² which typically involves taking a picture under a person’s clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm, and

- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Some of these behaviours will need to be handled with reference to other policies in school such as the behaviour & anti-bullying policy, child protection policy and online safety policy. This policy concentrates on child on child abuse in the context of sexual harassment and sexual violence. It is compliant with the statutory guidance on peer-on-peer abuse as set out in Keeping Children Safe in Education (September 2022) and should be read in conjunction with the Suffolk Safeguarding Board, Safeguarding Policy and Procedures, and any relevant Practice Guidance issued by it.

2. Policy Development

The policy has been developed in consultation with the Full Governing Body and Claire Wright (Head teacher HT)

3.Aims

The policy will:

- Set out our strategies for preventing, identifying and managing child on child abuse
- Take a contextual approach to safeguarding all children and young people involved.
- Acknowledging that children who have allegedly abused their peers or displayed harmful sexual behaviour are themselves vulnerable and may have been abused by peer, parents or adults in the community.

4.Understanding Child on child abuse

Sexual violence and sexual harassment can occur between two children of any age and sex or a group of children sexually assaulting or sexually harassing a single child or group of children. The impact of this behaviour on children can be very distressing and have an impact on academic achievement and emotional health and wellbeing. Sexual harassment and sexual violence may also occur online and offline.

5.The Context

All behaviour takes place on a spectrum. Understanding where a child's behaviour falls on a spectrum is essential to being able to respond appropriately to it. In this policy we recognise the importance of distinguishing between problematic and abusive sexual behaviour (Harmful Sexual Behaviour HSB).

We are adopting the NSPCC definition of HSB as: -

"Sexual behaviours expressed by children...that are developmentally inappropriate, may be harmful towards self or others, or be abusive towards another child...or adult."

Signs a child's sexual behaviour could be unhealthy or inappropriate include:

- showing sexual behaviour that's inappropriate for their age
- sexual behaviour that's becoming a compulsive habit or happening frequently
- behaviour using force, aggression or pressuring others

- engaging in behaviour that upsets other children involved
- sexual interest in adults or children of very different ages to their own
- if it's affecting their school work, relationships or social life
- using pornography or sending explicit images online, particularly without someone's consent
- any sexual behaviour that's harmful to themselves or others.

6. Vulnerable groups

We recognise that all children can be at risk however we acknowledge that some groups are more vulnerable. This can include: experience of abuse within their family; living with domestic violence; young people in care; children who go missing; children with additional needs (SEND and/or disabilities); children who identify or are perceived as Lesbian, Gay, Bisexual, and Transgender and/or have other protected characteristics under the Equalities Act 2010.

Whilst research tells us girls are more frequently identified as being abused by their peers and, girls are more likely to experience unwanted sexual touching in schools this is not confined to girls. Boys are less likely to report intimate relationship abuse and may display other behaviour such as antisocial behaviour. Boys report high levels of victimisation in areas where they are affected by gangs. We recognise that both boys and girls experience child on child abuse, but they do so in gendered ways.

7. Indicators

All staff should be aware of indicators, which may signal that children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries.

Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs. Responding to Alleged Incidents Responding to reports of sexual violence and sexual harassment

All reports of child on child abuse will be made on a case by case basis with the designated safeguarding lead or their deputy taking a leading role using their professional judgement and supported by other agencies such as social care or the police as required.

8. The immediate response to a report

- The school will take all reports seriously and will reassure the victim that they will be supported and kept safe.
- All staff will be trained to manage a report.
- Staff will not promise confidentiality as the concern will need to be shared further (for example, with the designated safeguarding lead or social care) staff will however only share the report with those people who are necessary to progress it.
- A written report will be made as soon after the disclosure as possible recording the facts as presented by the child. These may be used as part of a statutory assessment if the case is escalated later.
- Where the report includes an online element the school will follow advice on searching, screening and confiscation. The staff will not view or forward image unless unavoidable and only if another member of staff (preferably the Designated Safeguarding Lead - DSL) is present.
- The DSL will be informed as soon as possible.

9. Risk Assessment

When there has been a report of sexual violence, the designated safeguarding lead (or a deputy) will make an immediate risk and needs' assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis.

The risk and needs' assessment should consider:

- The victim, especially their protection and support;
- The alleged perpetrator; and
- All the other children (and, if appropriate, adult students and staff) at the school especially any actions that are appropriate to protect them;

Risk assessments will be recorded written and be kept under review. The designated safeguarding lead (or a deputy) will ensure they are engaging with Multi-Agency Safeguarding Hub (MASH).

10. Action following a report of sexual violence and/or sexual harassment

Following an incident, we will consider

- The wishes of the victim in terms of how they want to proceed. This is especially important in the context of sexual violence and sexual harassment;
- The nature of the alleged incident(s), including: whether a crime may have been committed and consideration of harmful sexual behaviour;
- The ages of the children involved;
- The developmental stages of the children involved;
- Any power imbalance between the children. For example, is the alleged perpetrator significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?
- If the alleged incident is a one-off or a sustained pattern of abuse;
- Are there ongoing risks to the victim, other children, adult students or school,
- staff; and other related issues and wider context.

11. Follow up Actions

Children sharing a classroom:

Whilst the school establishes the facts of the case and starts the process of liaising with children's social care and the police:

- The perpetrator will be removed from any classes they share with the victim.
- We will consider how best to keep the victim and alleged perpetrator a reasonable distance apart on school premise and any transport.

These actions are in the best interests of both children and should not be perceived to be a judgment on the guilt of the alleged perpetrator.

12. Options to manage the report

Manage internally

In some cases of sexual harassment, for example, one-off incidents, we may decide that the children concerned are not in need of early help or statutory intervention and that it would be appropriate to handle the incident internally, perhaps through utilising the behaviour and bullying policies and by providing pastoral support through the schools Emotional Literacy Support Assistant (ELSA) and Keeping It Well In School (KIWIS) room.

This decision will be made based on the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated. All decisions, and discussions around making these decisions will be recorded on welfare forms and logged with the DSL.

In line with the above, we may decide that the children involved do not require statutory interventions but may benefit from early help. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can be particularly useful to address nonviolent harmful sexual behaviour and may prevent escalation of sexual violence.

Where a child has been harmed, is at risk of harm, or is in immediate danger, we will make a referral to the MASH following locally agreed protocols. Where statutory assessments are appropriate, the designated safeguarding lead or a deputy will be working alongside, and cooperating with, the relevant lead social worker. Collaborative working will help ensure the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator and any other children that require support.

13. Reporting to the Police

Any report to the police will generally be made through the MASH as above. The DSL (and their deputies) will follow local processes for referrals. Where a report of rape, assault by penetration or sexual assault is made, the starting point is this will be passed on to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of reporting to the police remains. The police will take a welfare, rather than a criminal justice, approach.

Where a report has been made to the police, the school will consult the police and agree what information can be disclosed to staff and others, the alleged perpetrator and their parents or carers. They will also discuss the best way to protect the victim and their anonymity. Where there is a criminal investigation, we will work closely with the relevant agencies to support all children involved (especially potential witnesses). Where required, advice from the police will be sought in order to help us. Whilst protecting children and/or taking any disciplinary measures against the alleged perpetrator, we will work closely with the police (and other agencies as required), to ensure any actions the school take do not jeopardise the police investigation.

14. The end of the criminal process

If a child is convicted or receives a caution for a sexual offence, the school will update its risk assessment, ensure relevant protections are in place for all children. We will consider any suitable action following our behaviour policy. If the perpetrator remains in school/academy we will be very clear as to our expectations regarding the perpetrator now they have been convicted or cautioned. This could include expectations regarding their behaviour and any restrictions we think are reasonable and proportionate about the perpetrator's timetable. Any conviction (even with legal anonymity reporting restrictions) is potentially going to generate interest among other pupils or

students in the school. We will ensure all children involved are protected, especially from any bullying or harassment (including online). Where cases are classified as “no further action” (NFA’d) by the police or Crown Prosecution Service, or where there is a not guilty verdict, we will continue to offer support to the victim and the alleged perpetrator for as long as is necessary. A not guilty verdict or a decision not to progress with their case will likely be traumatic for the victim. The fact that an allegation cannot be substantiated does not necessarily mean that it was unfounded. We will continue to support all parties in this instance.

15.Support for Children Affected by Sexual-Assault

Support for victims of sexual assault is available from a variety of agencies. We will support the victim of sexual assault to remain in school but if they are unable to do so we will enable them to continue their education elsewhere. This decision will be made only at the request of the child and their family.

If they are moved, we will ensure the new school is aware of the ongoing support they may need. The DSL will support this move.

Where there is a criminal investigation the alleged perpetrator will be removed from any shared classes with the victim and we will also consider how best to keep them a reasonable distance apart on the school premises or on school transport. This is in the best interest of the children concerned and should not be perceived to be a judgement of guilt before any legal proceedings.

16. We will work closely with the police.

Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, we may take suitable action, if we have not already done so. In all but the most exceptional of , the rape or assault is likely to constitute a serious breach of discipline and lead to the view that allowing the perpetrator to remain in the same school would seriously harm the education or welfare of the victim (and potentially other pupils or students).

Where a criminal investigation into sexual assault leads to a conviction or caution, we may, if we have not already done so, consider any suitable sanctions using our behaviour policy, including consideration of permanent exclusion.

Where the perpetrator is going to remain at the school, the principle would be to continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on school premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.

Reports of sexual assault and sexual harassment will, in some cases, not lead to a report to the police (for a variety of reasons). In some cases, rape, assault by penetration, sexual assault or sexual harassment are reported to the police and the case is not progressed or are reported to the police and ultimately result in a not guilty verdict. None of this means the offence did not happen or that the victim lied. The process will have affected both victim and alleged perpetrator. Appropriate support will be provided to both as required and consideration given to sharing classes and potential contact as required on a case-by-case basis. All the above will be considered with the needs and wishes of the victim at the heart of the process (supported by parents and carers as required). Any arrangements should be kept under review.

17. Physical Abuse

While a clear focus of child on child abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from pupils to pupils can also be abusive. These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the police.

When dealing with other alleged behaviour which involves reports of, for example, emotional and/or physical abuse, staff can will use their profession judgement to ascertain whether it;

- is socially acceptable
- involves a single incident or has occurred over a period of time
- is socially acceptable within the peer group
- is problematic and concerning
- involves any overt elements of victimisation or discrimination e.g. related to race, gender, sexual orientation, physical, emotional, or intellectual vulnerability
- involves an element of coercion or pre-planning
- involves a power imbalance between the child/children allegedly responsible for the behaviour
- involves a misuse of power

Staff can also use Appendix One to help them further form a judgment.

18. Online Behaviour

Many forms of child on child abuse have an element of online behaviour including behaviours such as cyberbullying and sexting. Policies and procedures concerning this type of behaviour can be found (in Behaviour and anti- bullying policy, online safety policy & child protection & safeguarding policy.

19 Prevention

Hopton CEVC Primary School actively seeks to raise awareness of and prevent all forms of peer-on-peer abuse by:

- Educating all Governors, staff and volunteers, and parents about this issue. This will include training all Governors, staff and volunteers on the nature, prevalence and effect of peer-on-peer abuse, and how to prevent, identify and respond to it. This includes

(a) Contextual Safeguarding;

(b) The identification and classification of specific behaviours; and

(c) The importance of taking seriously all forms of peer-on-peer abuse (no matter how low level they may appear) and ensuring that no form of peer-on-peer abuse is ever dismissed as horse play or teasing.

- Educating children about the nature and prevalence of peer-on-peer abuse via RSE and the wider curriculum.
- Pupils/Students are frequently told what to do if they witness or experience such abuse, the effect that it can have on those who experience it and the possible reasons for it, including vulnerability of those who inflict such abuse.
- They are regularly informed about the School's approach to such issues, including its zero tolerance policy towards all forms of peer-on-peer abuse.

Engaging parents on this issue by:

- (a) Talking about it with parents, both in groups and one to one;
- (b) Asking parents what they perceive to be the risks facing their child and how they would like to see the School address those risks;
- (c) Involving parents in the review of School policies and lesson plans; and
- (d) Encouraging parents to hold the School to account on this issue.

Ensuring that all peer-on-peer abuse issues are fed back to the School's safeguarding lead so that they can spot and address any concerning trends and identify children who maybe in need of additional support. [This is done by way of a weekly staff briefing at which all concerns about children (including peer-on-peer abuse issues) are discussed];

20. Multi-agency working

The School actively engages with its local partners in relation to peer-on-peer abuse, and works closely with, Suffolk Safeguarding Partnership, Suffolk Multi- Agency Safeguarding Hub, children's social care, and/or other relevant agencies, and other schools.

The relationships the School has built with these partners are essential to ensuring that the School is able to prevent, identify early and appropriately handle cases of peer-on-peer abuse. They help the School

- (a) To develop a good awareness and understanding of the different referral pathways that operate in its local area, as well as the preventative and support services which exist;
- (b) To ensure that our [pupils/students] can access the range of services and support they need quickly;
- (c) To support and help inform our local community's response to peer-on-peer abuse;
- (d) To increase our awareness and understanding of any concerning trends and emerging risks in our local area to enable us to take preventative action to minimise the risk of these being experienced by our [pupils/students].

The School actively refers concerns/allegations of peer-on-peer abuse where necessary to Suffolk MASH (or equivalent in Norfolk depending on the child's address)], children's social care, and/or other relevant agencies. In cases involving children who are subject to risk, harm and abuse and who have LAC status, the children's social worker must be informed and a coordinated approach to address any incidents or concerns will be required.

Appendix One:

A continuum of behaviours

It is vital for professionals to distinguish normal from abnormal sexual behaviours. Chaffin et al (2002, p208) suggest a child's sexual behaviour should be considered abnormal if it:

- occurs at a frequency greater than would be developmentally expected
- interferes with the child's development
- occurs with coercion, intimidation, or force
- is associated with emotional distress
- occurs between children of divergent ages or developmental abilities
- repeatedly recurs in secrecy after intervention by caregivers.

Hackett (2010) has proposed a continuum model to demonstrate the range of sexual behaviours presented by children and young people, from those that are normal, to those that are highly deviant:
