## Introduction

Hopton CEVC Primary School is committed to the Freedom of Information Act 2000 and to the principles of accountability and the general right of access to information, subject to legal exemptions. This policy outlines our response to the Act and a framework for managing requests.

## Background

The Freedom of Information Act 2000 (Fol) came fully into force on January 1 2005. Under the Act, any person has a legal right to ask for access to information held by the school. They are entitled to be told whether the school holds the information, and to receive a copy, subject to certain exemptions.

The information which the school routinely makes available to the public is included in the Publication Scheme. While the Act assumes openness, it recognises that certain information is sensitive. There are exemptions to protect this information.

The Act is fully retrospective, so that any past records which the school holds are covered by the Act. The DfE has issued a Retention Schedule produced by the Records Management Society of Great Britain, to guide schools on how long they should keep school records. It is an offence to wilfully conceal, damage or destroy information in order to avoid responding to an enquiry, so it is important that no records that are the subject of an enquiry are amended or destroyed.

Requests under Fol can be addressed to anyone in the school; so all staff need to be aware of the process for dealing with requests. Requests must be made in writing, (including email), and should include the enquirers name and correspondence address, and state what information they require. They do not have to mention the Act, nor do they have to say why they want the information. There is a duty to respond to all requests, telling the enquirer whether or not the information is held, and supplying any information that is held, except where exemptions apply. There is a time limit of 20 days excluding school holidays for responding to the request.

## Scope

The Fol Act joins the Data Protection Act and the Environmental Information Regulations as legislation under which anyone is entitled to request information from the school.

Requests for personal data are still covered by the Data Protection Act (DPA). Individuals can request to see what information the school holds about them. This is known as a Subject Access Request, and must be dealt with accordingly.

Requests for information about anything relating to the environment – such as air, water, land, the natural world or the built environment and any factor or measure affecting these – are covered by the Environmental Information Regulations (EIR). They also cover issues

relating to Health and Safety. For example queries about chemicals used in the school or on school land, phone masts, car parks etc. would all be covered by the EIR. Requests under EIR are dealt with in the same way as those under FoIA, but unlike FoI requests, they do not need to be written and can be verbal.

If any element of a request to the school includes personal or environmental information, these elements must be dealt with under DPA or EIR. Any other information is a request under FoI, and must be dealt with accordingly.

### Obligations and Duties

The school recognises its duty to

- *provide advice and assistance to anyone requesting information. We will respond to straightforward verbal requests for information, and will help enquirers to put more complex verbal requests into writing so that they can be handled under the Act.*
- *tell enquirers whether or not we hold the information they are requesting (the duty to confirm or deny), and provide access to the information we hold in accordance with the procedures laid down elsewhere.*

### Publication Scheme

Section 19 of the FoIA obliges the School to make information pro-actively available in the form of a “publication scheme”. This scheme will list categories, or “classes” of information that will routinely be made available without the need for a specific information request. The School will indicate in the scheme where it wishes to charge for providing particular categories of information. The scheme is published on the School’s website.

The School plans to review this scheme regularly. Whenever any information is provided in response to a recorded FoIA enquiry, the School will assess whether the information is suitable for wider publication. In general, there will be a presumption in favour of publishing such information on the School’s website.

### Dealing with Requests

Freedom of Information requests should be dealt with within 20 working days, excluding school holidays.

### Exemptions

Certain information is subject to either absolute or qualified exemptions. When we wish to apply a qualified exemption to a request, we will invoke the public interest test procedures to determine if public interest in applying the exemption

outweighs the public interest in disclosing the information.

We will maintain a register of requests where we have refused to supply information, and the reasons for the refusal. The register will be retained for 5 years.

### Public Interest Test

Unless it is in the public interest to withhold information, it has to be released. We will apply the Public Interest Test before any qualified exemptions are applied.

### Charging

We reserve the right to refuse to supply information where the cost of doing so exceeds the statutory maximum, currently £500.

*Governing bodies may choose to charge a fee for complying with requests for information under FOI. The fees must be calculated according to FOI regulations, and the person notified of the charge before information is supplied. It is recommended that schools respond to most requests free of charge, and only charge where significant costs are incurred.*

*The school can calculate the costs, taking account of staff time, as well as direct costs, but if the total is less than the statutory maximum, the school can only charge the direct costs (e.g. printing, postage etc.) If the cost exceeds the statutory maximum the school does not have to respond, but may choose to do so, either charging for time and direct costs or not. It is good practice to contact the enquirer, and see if they wish to reduce the request, thus reducing the time and costs to below the maximum.*

### Responsibilities

I Governing body will delegate the day-to-day responsibility for compliance with the FOIA to the Headteacher.

All School staff are responsible for ensuring that they handle requests for information in compliance with the provisions of the various Acts, taking advice from the Headteacher.

### Complaints

Any comments or complaints will be dealt with through the school's normal complaints procedure.

We will aim to determine all complaints within 10 days of receipt. We will publish information on our success rate in meeting this target. The school will maintain records of all complaints and their outcome.

If on investigation the school's original decision is upheld, then the school has a duty to inform the complainant of their right to appeal to the Information Commissioner's office. Appeals should be made in writing to the Information Commissioner's office. They can be contacted at:

FOI/EIR Complaints Resolution  
**Information Commissioner's Office**  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

### Records Management

The School recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the institution. This document provides the policy framework through which this effective management can be achieved and audited. It covers:

- Scope
- Responsibilities
- Relationships with existing policies

### Scope of the policy

This policy applies to all records created, received or maintained by staff of the school in the course of carrying out its functions.

Records are defined as all those documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

A small percentage of the school's records will be selected for permanent preservation as part of the institution's archives and for historical research.

### Responsibilities

It is the responsibility of the Governors to ensure procedures are in place to ensure that the school handles information requests covered by the Freedom of Information Act 2000 (FoIA), the Data Protection Act 2018 (DPA) and the Environmental Information Regulations 2004 (EIR) in accordance with the provisions laid out therein and that the school satisfies the standards set out in the Lord Chancellor's Code of Practice on satisfying public authorities obligations under the FoIA, produced under section 45 of that Act.

### Relationship with existing policies

This policy has been drawn up within the context of Data Protection policy and with other legislation or regulations (equal opportunities and ethics) affecting the school.
